

**Buy a piece of PSU's History...
And help us build the future**

The Portland Center for Advanced Technology (known to many as the PCAT Building), was deconstructed to make room for a state-of-the-art, multi-use building that will house a new Student Recreation Center and the School of Social Work.

Now, with construction already underway, you can help complete the project by purchasing a \$100 commemorative brick from "old blue."

Proceeds from these bricks will help build a track and purchase equipment for the student recreation center or will help build the School of Social Work. However you designate your gift, it will make a difference!
